SUPPLEMENT

1. As a result of an understanding reached between the delegation headed by László Rajk, Hungarian Minister of the Interior, and French Communist Party leaders, Hungarian communists will cooperate more closely with the Communist-dominated Centre D'Action et Defense des Immigres (CADI).
2. As one of their first cooperative acts, the Hungarians are participating in the European resistance and revival exhibition which opened at Bordeaux on 14 December. This exhibition was organized by CADI with the object of showing the sacrifices which various nations had made in their struggle against fascism. Delegates will also hold conferences. While the overt purpose of the exhibition is the promotion of cooperation between the democratic nations in the reconstruction effort, the true purpose is thought to be a new anti-Franco propaganda campaign.
3. The exhibit will also be shown in Toulouse, Marseille, Lyon, Strasbourg, and Lille. Later exhibits are planned in all countries which are now participating and have national committees with CADI. Hungary, through Rajk, has invited CADI to send the exhibition to Budapest.
